Summary

Results-driven Planning & Merchandising Professional with 6+ years of experience in forecasting, OTB management, and inventory optimization within fast-paced retail environments across the MENA region. Skilled in developing sales and margin-focused merchandise strategies, leading cross-functional planning initiatives, and delivering data-driven insights to drive profitability and business growth. Proven ability to balance customer needs with operational efficiency, ensuring ideal stock levels, reduced markdowns, and improved sell-through performance. Adept in SAP, Excel (VBA, Power Query), and advanced retail analytics tools.

Experience

Assistant Manager – Demand & Supply Planning - MENA

Samsung Electronics FEB 2026 – Present

- Led end-to-end service parts planning across MENA, ensuring availability within defined lead time.
- Managed parts master data including service BOM aligned with market benchmarks and margin targets.
- Built demand forecasting models to predict service parts requirement, improving accuracy and reducing emergency orders.
- Oversaw supply planning operations including backorder management, discontinued parts, and last-time-buy strategies.
- Optimized inventory levels by identifying excess, and enabling inter-Subs stock rebalancing.
- Collaborated cross-functionally with other Subs Planners to enhance parts availability and customer service levels.
- Supported sustainability initiatives through parts collection, recycling programs, and lifecycle management improvements.

Senior Planner – GCC

Eyewa Retail DEC 2023 – FEB 2026

- Lead the planning function across GCC markets, managing forecasting, budgeting, and inventory flow to achieve company sales.
- Oversaw OTB discipline to align inflows with assortment and seasonal requirements.
- Collaborated with buying, operations, logistics, and marketing teams to ensure consistent product flow and commercial readiness.
- Drove merchandise mix optimization across stores, ensuring ideal coverage and healthy forward stock levels.
- Planned and executed markdown and promotion strategies to maximize sell-through and protect margins.
- Performed market visits to analyze competitor pricing, assortment, and trends to guide data-led decisions.
- Automated planning tools that cut replenishment time by 85% and improved in-stock rate by 75%.
- Partnered with cross-functional teams to drive retail operations, analyze customer insights, and support new business concepts.

Regional Demand Planning Lead - MENA

MAGRABi Retail Aug 2021 – DEC 2023

- Led **demand planning** for over 20 luxury eyewear brands across 6 markets, integrating promotional and new product forecasts.
- Drove **catalog optimization** by managing SKU lifecycle, and improving best-seller availability by 25%.
- Managed P&L performance with category teams, ensuring demand plans balanced sales growth with cost efficiency.
- Managed purchasing, **ensuring efficient OTB execution** and minimizing overstock.
- Collaborated with commercial, marketing, and finance teams to align sales forecasts with category targets and market dynamics.
- Developed budget plans, tracked KPIs, and led projects to enhance product lifecycle efficiency.
- Implemented automated forecasting tools, reducing obsolete inventory by 78% and improving best-seller availability.
- Supported brand launches and provided weekly performance reports for internal stakeholders.

Material Requirement Planning (MRP) Engineer

LafargeHolcim Aug 2019 – July 2021

- Monitoring and Manage Stock Level.
- Forecasted material needs, maintained optimal stock levels, and monitored supplier performance using **SAP ERP**.
- Reduced excess inventory and introduced preventive maintenance protocols.
- Acted as key liaison with procurement and maintenance departments to ensure timely material availability.
- Controlled inventory of spare parts and streamlined vendor sourcing to reduce cost and lead time.

Education

MITx Massachusetts Institute of Technology on edX,

MITx MicroMasters Program in Supply Chain Management - Sep 2021 – 2023

London South Bank University (LSBU)

Bachelor's degree, Mechanical Engineering - 2014 – 2019

- First Class Honors "Ranked Fourth in Class"

Key Achievements

- **SAP MRP Migration Project (Holcim):** Reduced inventory value by 8.5M EGP and maintenance costs by 3.9M EGP
- **MORE & SMILE Implementation (MAGRABi):** leading to **50% sales growth** for MARCOLIN & **56% for SAFILO**.
- **Building Automated Stores Replenishment Tool using Excel Power Query (Eyewa):** Reducing replenishment cycle from 6 to 1 hour "85% efficiency increase" and optimizing best-selling SKUs in stores "In stock rate of 90% vs 15% before".

Skills

- Demand Forecasting & Sales Planning (Baseline, Promo, Seasonal)
- Cross-Functional Collaboration (Sales, Marketing, Finance, Operations, Vendor Management)
- Data Analytics & Automation (Excel VBA, Power Query, SAP)
- Continuous Improvement & Process Optimization
